

Wall Mount Workstand

Secure and space-efficient DIY bicycle repair stand

The Wall Mount Workstand is the robust and space efficient answer for providing the common tools needed for quick cycle repairs. The QR code on the label links people to helpful online tutorials for making minor adjustments.

This robust product is made from thick-wall steel designed for indoor and outdoor use. Its wall mounted kit has a small footprint, making it perfect for saving space.

It features eight tools which are securely connected by stainless steel aircraft cables reducing theft and vandalism. An optional Wall Plate is available to protect the wall from tool strike damage.

When paired with a pump, you have a super space-efficient DIY bicycle repair area that cyclists will love!
